This is a fictional sample created to demonstrate layout and wording. The person, employers, institute and links do not exist.

PROFESSIONAL SUMMARY

B.Tech Computer Science graduate (2026) with internship experience in front-end development and a strong foundation in Python, JavaScript and SQL. Built academic and internship projects that turned briefs into clean, usable web interfaces. Looking for an entry-level software or web developer role in India.

EDUCATION

B.Tech in Computer Science and Engineering
Sample Institute of Technology, Palakkad · 2022 – 2026
CGPA: 8.4 / 10 · Relevant coursework: Data Structures, DBMS, Web Technologies, Operating Systems

Higher Secondary (Class XII), Science
Sample Higher Secondary School, Palakkad · 2022 · 92%

SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL

Tools and frameworks: Git, VS Code, React (basic), MySQL, Linux

Other: Technical writing, requirements gathering, basic UI design

INTERNSHIP

Web Development Intern | *Nilgiri Cloud Labs (fictional employer)*
June 2025 – August 2025 · Palakkad / Remote

- Built and tested five internal landing-page templates in HTML, CSS and JavaScript from design briefs.
- Fixed accessibility and form-validation issues on a customer-enquiry page used by the support team.
- Wrote short README notes so later interns could run and edit the templates without extra briefing.

PROJECTS

Campus Lost-and-Found Portal · *Python, Flask, SQLite*

- Designed a simple web app for students to post and claim lost items, with login and photo upload.
- Added search by category and date so staff could review listings without scrolling the full list.

Personal Expense Tracker · *JavaScript, HTML, CSS*

- Built a browser-based tracker that stores monthly expenses locally and shows category totals.
- Exported a CSV summary so the data could be opened in a spreadsheet.

CERTIFICATIONS

- NPTEL — Programming, Data Structures and Algorithms using Python (fictional completion record for this sample), 2025
- freeCodeCamp — Responsive Web Design certification (fictional completion record for this sample), 2024
