SAMPLE – FICTIONAL DETAILS · NOT A REAL PERSON, BUSINESS OR OFFICIAL FORM

OET WRITING FEEDBACK (SAMPLE)

Nursing · Discharge letter extract · For Anjali Thomas (fictional) · Sample – fictional details. The people, employers, universities and addresses do not exist.

TASK TYPE

Write a letter to the community nurse after a patient's discharge, using the case notes provided (case notes invented for this sample).

EXTRACT

> Mrs. Latha R., 67 years, was discharged today after treatment for community-acquired pneumonia. She is afebrile, completing oral antibiotics, and needs follow-up of her blood pressure and inhaler technique at home...

FEEDBACK (SAMPLE)

- Purpose is clear in the first two lines — keep that.
- Add the exact antibiotic, dose and end date, because the receiving nurse cannot safely follow up without them.
- Separate social history (lives with son, first-floor flat, no lift) from clinical content so nothing is missed.
- Tone is appropriately formal. Avoid casual asides.

This is writing feedback, not an official OET score, and not a registration or visa service.
